Welcome to the Siemens ecoline Leading Edge.

ecoline stands for high-quality pre-owned medical systems from Siemens Healthcare – offering the broadest range of refurbished systems in the industry.

High patient expectations, rising economic pressure: Find your way to cope with both of these challenges and perform excellently in all aspects. Create a leading edge that you only have with ecoline – your pre-owned certified system from Siemens Healthcare.

ecoline:

- Performs **like new** – since it undergoes a certified¹⁾ 5-step Quality Process
- Incorporates **true Siemens quality** – from a worldwide leader in medical imaging
- Provides immediate availability, excellent reliability, and **high throughput** – enabling a fast return on investment
- Comes with a full range of **service contracts** – including regular updates and upgrades
- Allows for **easy fleet extension** with different modalities – all from a single source

¹⁾ According to our Proven Excellence Quality Certificate.

ecoline Explore pre-owned

Enjoy the benefits of ecoline systems – throughout nearly the entire Siemens Healthcare product portfolio.

ecoline performs like new – at an average price advantage of up to

20%

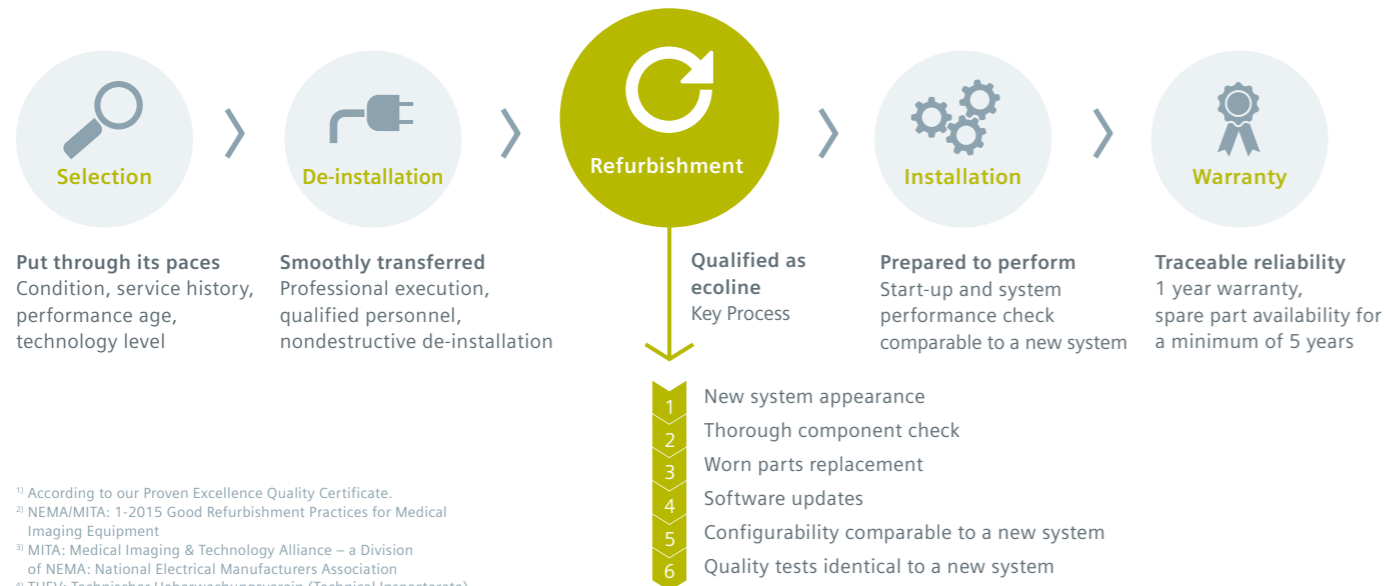

Peace of mind

It's not a promise, it's a fact: An ecoline system lets you enjoy unmatched confidence. Only ecoline systems undergo our certified¹⁾ 5-step Quality Process – setting them apart from other pre-owned Siemens Healthcare systems. So you can experience uncompromised reliability and exceptional value with every ecoline system.

ecoline:

- Follows our 5-step Quality Process that guarantees technical excellence and environmental responsibility
- Our 5-step Quality Process fulfills the NEMA/MITA standard²⁾³⁾ for refurbishment as well as the ISO 13485 standard 'Quality Management System for Medical Devices'. Siemens Healthcare's Quality Management System is certified by TUEV⁴⁾ in regard to the requirements of ISO 13485.
- In addition, the requirements of ISO 14001 and OHSAS 18001 are met, as certified by SGS (Société Générale de Surveillance).

The 5-step Quality Process in line with NEMA:

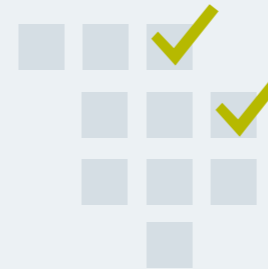

¹⁾ According to our Proven Excellence Quality Certificate.
²⁾ NEMA/MITA: 1-2015 Good Refurbishment Practices for Medical Imaging Equipment
³⁾ MITA: Medical Imaging & Technology Alliance – a Division of NEMA: National Electrical Manufacturers Association
⁴⁾ TUEV: Technischer Ueberwachungsverein (Technical Inspectorate)

Did you also know that ...

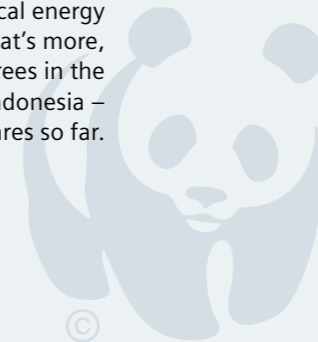

... you can choose exactly the ecoline configuration you prefer?

With ecoline, you can individually configure your system according to your clinical needs – while matching your budget. Choose your basic system and add as many options as you want. Whatever your choice, you can benefit from service, financing options, and application trainings just like for a new system.

... our 5-step Quality Process leads to a reduction of 20,000 tons of CO₂?

These annual carbon savings equate to the electrical energy consumption of about 5,700 households. What's more, for every ecoline system you buy, we will plant trees in the Indonesian rainforest in cooperation with WWF Indonesia – adding up to almost 64 hectares so far.

Get a great deal – by trading in or selling your pre-owned system

Reliable and fair

Are you looking to give your existing system the boot – and bring in the latest Siemens equipment? Would you like to free up some of your budget?

It's as easy as this: Just sell or trade in your pre-owned medical equipment. It doesn't matter whether it's from Siemens or not. Put simply, you combine an excellent deal with fast payment and greater financial flexibility.

Trade-in pays off – for you:

- Get attractive trade-in values and exchange options
- Be flexible to sell or trade in equipment from both Siemens and other vendors
- Enjoy reliable and fast payment
- Reduce downtimes thanks to safe and professional de-installation by qualified personnel
- Minimize effort by getting everything from a single source

“Our relationship has developed to a stage where we trust each other totally.”

Dr. Arkady Stolpner
Founder of the Diagnostic Treatment Center of the
International Institute of Biological Systems, Russia

Did you also know that ...

Siemens Healthcare Refurbished Systems is growing by more than 10 percent per year?

For more than 15 years, Siemens Healthcare Refurbished Systems has been buying and selling pre-owned medical systems – adding up to a total of 7,500 units installed up to date. We owe our success to satisfied customers and the word of mouth they spread. They have made us the worldwide no. 1 in the market for refurbished diagnostic imaging systems – with an annual growth of more than 10 percent.

Be proud of being an **ecoline** owner, too!

Trade in and enjoy a fair partnership!
